

INSTRUCTIONS FOR REPLACING DETERGENT INJECTOR KIT

For Simoniz 2700PSI Gas Pressure Washer (with Ducar 173cc Gas Engine)

Canadian Tire Product : 039-8055-2

Model Number: UG01

Tools required: Spark Plug wrench (included with machine)

Part Number: To order click on link: [UG01-202-0000 \(Detergent Injector Kit\)](#) or, see below contact details.

Difficulty Level (1-3): 1 (Easy)

WARNING: BEFORE YOU START

Accidental starts can cause serious injury or death. Before performing repair, make sure machine is OFF and disable engine by disconnecting spark plug wire. HOT PARTS CAN CAUSE SEVERE BURNS. DO NOT TOUCH ENGINE WHILE OPERATING, OR JUST AFTER STOPPING. Work on a LEVEL and FLAT surface.

STEP 1: Remove the detergent tube to access to the detergent injector.

STEP 2: Use a wrench to remove the Detergent Injector Valve found underneath the Pump assembly. Be careful not to lose the small ball and spring located inside the Detergent Injector.

STEP 3: Unscrew and remove the Detergent Injector Valve. Disconnect the tube from the Valve and insert the new Valve. Replace the new Detergent Injector by placing the Spring and Ball into the injector as shown in this image. The Ball should be held in place with the Spring.
